

## Economic Modeller (junior)

---

### Job description

[Cambridge Econometrics](#) (CE) is a leading independent economic consultancy. Our analysis and insights are used by clients around the world to inform policy decisions about pressing challenges to society. The CE Group employs over 50 people at our companies in Cambridge, Brussels and Budapest. We provide [economic and policy research](#) in areas that we are interested in and that make a difference to people and the natural environment; the Financial Times lists us as a [top Management Consultancy](#). Our clients include the European Commission, European Parliament and national governments, as well as a range of NGOs and private sector companies.

**We are seeking collaborative and resourceful economic modellers to join our *Modelling Team***, developing and delivering consultancy projects to help our clients to meet their policy and strategy needs.

Working with our policy experts, your responsibilities will include:

- undertaking quantitative analysis - data handling and visualisation, statistical analysis, econometric estimation, economic modelling and forecasting
- applying, maintaining and developing CE's in-house tools and models for economic analysis
- qualitative research to inform and complement the quantitative analysis, e.g. literature reviews, and monitoring developments in policy
- drafting reports and other deliverables to communicate clearly the key messages from the analysis

### Person specification

We are looking for people who have:

- a first degree in, data science, statistics, computing, economics or another quantitative discipline at 2:1 or above; a master's degree is not essential
- a keen interest in Cambridge Econometrics' core business of extracting meaning from economic data and in working with large datasets and systems modelling
- an interest and understanding of logic and computer programming
- an aptitude for lateral thinking and a proactive, resourceful, and creative approach to problem-solving
- fluency in written and spoken English

Candidates will be required to have the right to work in the EU by the start of their employment.

For more details see our website <https://www.camecon.com/who/vacancies/>.

To apply, download our application form ([Word](#) or [PDF](#)), complete it, and follow the instructions on how to submit it.

## Working at Cambridge Econometrics

Cambridge Econometrics is a world-leading provider of real-world, evidence-based economic analysis for policy assessment. As the trading arm of a charitable trust, we're driven by a desire to make a difference, not just a profit. We do work that we are interested in and can feel proud of.

We look for people who can provide rigorous, quantitative analysis and deliver it to our clients with confidence and clarity. Our reputation is based on delivering penetrating insight, so we recruit and develop people with an ability to digest, interpret and summarise key messages.

Cambridge Econometrics is accredited as an Investors in People organisation at the Silver award level. In all parts of the organisation we like to stretch and challenge our staff, so they continue to learn, and develop their skills and experience. We offer a collaborative, supportive and inclusive environment, and a strong commitment to high-quality training and development from day one. Benefits include: individual training budget; flexible working; and (depending on location) group personal pension, income protection and life assurance.

We are committed to promoting a diverse workforce and we welcome applications from under-represented communities and groups. A copy of our Equal Opportunities Policy is available on request.

Data protection: read our [privacy policy](#) to find out how we collect and process personal data relating to your application.
